Forecast for Tuesday 02 Aug 2022

Weather: Rain and drizzle, which may be persistent and heavy at times, particularly through the morning, will spread eastwards through the day, becoming lighter and patchier at times through the afternoon, particularly in the north and east.

Chance of cloud-free hill tops above 600m: Less than 10%, increasing to 30% in the east at times.

Low cloud and visibility: Extensive cloud cover with bases 300-400m, but locally down to 100-200m on western slopes. Cloud lifting and breaking slightly by the afternoon to 400-600m, mainly in the east. Very poor visibility through the morning due to low cloud and heavy rain, but improving slightly beneath the cloud base in the east by late afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Strong winds are likely through the day, with gusts up to gale force (45mph) possible for exposed summits, and appropriate clothing will also be required for heavy and persistent rain and drizzle, particularly through the morning.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Tue 02 Aug 2022	1.4mm	6.6mm	11.2mm

Forecast for Wednesday 03 Aug 2022

Weather: A cloudy start to the day on Wednesday, patchy rain and drizzle, particularly on western slopes, will move away to the east through the morning. Becoming drier as cloud breaks, leaving plenty of sunny spells through the afternoon, but a risk of some showery rain at times, though this mainly confined to the west.

Maximum wind: South-westerly winds, 20-25mph with gusts of 30-55mph, easing to 10-15mph gusting 15-20mph by late evening.

Chance of cloud-free hill tops 600m: 20%, increasing to 80% by midday.

Low cloud and visibility: Extensive low cloud with bases 400-600m early morning will lift and break up by late morning. Through the afternoon there will be patchy cloud with bases around 800m. Visibility improving as any rain and drizzle clears, good to very good visibility beneath any cloud during the afternoon.

Temperature: **Valleys:** Plus 16 Celsius rising to Plus 23 Celsius.
At 600m: Plus 11 Celsius rising to Plus 13 Celsius.
Freezing level: Well above all summits.
